

Priya Sharma

Clinical Research Scientist

priya.sharma@example.com +44 20 7946 0958 London, England, GB priyasharma-research.example.com

LinkedIn ORCID

PhD-trained clinical researcher specializing in oncology trial design, biomarker validation, and regulatory submission packages. Ten years bridging bench science and phase II/III clinical operations.

EXPERIENCE

Principal Clinical Scientist

Mar 2020 – May 2026

Helix Therapeutics · Cambridge, UK

Lead scientist for two immuno-oncology trials across EU and North American sites.

- Authored investigator brochures and clinical study reports for EMA and FDA review.
- Reduced protocol deviation rate by 31% through centralized monitoring dashboards.
- Co-chaired data safety monitoring board preparation for a phase II basket trial.

Postdoctoral Research Fellow

Sep 2016 – Feb 2020

National Cancer Research Institute · London, UK

Conducted biomarker discovery studies supporting early-phase trial cohort selection.

- Published findings linking PD-L1 expression patterns to treatment response stratification.
- Managed biobank sample logistics for 400+ participant longitudinal study.

VOLUNTEER

STEM Outreach Volunteer

2018 – 2024

Science Oxford

Delivered hands-on workshops introducing clinical trials to secondary school students.

- Reached 1,200 students across underserved boroughs in Greater London.
- Designed a mock trial activity explaining randomization and blinding.

EDUCATION

Imperial College London

Oct 2013 – Aug 2016

PhD, Translational Medicine · Pass with no corrections

- Advanced Biostatistics for Clinical Trials
- Regulatory Affairs in Drug Development
- Immunology of Cancer

University of Manchester

2009 – 2013

Bachelor of Science, Biomedical Sciences · First Class Honours

- Molecular Biology
- Pharmacology
- Research Methods

PROJECTS

TrialTrack Open Dashboard

Apr 2023 – Jan 2024

Helix Therapeutics / NCRI alumni network · application · Lead developer, Maintainer

Open-source dashboard visualizing enrollment velocity and deviation trends for academic trial sites.

Python, FastAPI, Clinical trials, Open source

- Adopted by 12 NHS trusts for internal monitoring.
- Built with Python, FastAPI, and Plotly.

SKILLS

Clinical Operations

Master — Protocol writing, CTMS, Medidata Rave, Risk-based monitoring

Biostatistics

Advanced — SAS, R, Survival analysis, Sample size calculation

AWARDS

Early Career Investigator Award

Jun 2023

European Society for Medical Oncology

Recognized for outstanding contribution to biomarker-driven trial design in solid tumours.

CERTIFICATES

Good Clinical Practice (GCP)

Jan 2024

TransCelerate BioPharma

Certified Clinical Research Professional

Nov 2021

Society of Clinical Research Associates

PUBLICATIONS

Predictive Biomarkers in Checkpoint Inhibitor Therapy

Feb 2025

The Lancet Oncology

Multi-centre retrospective analysis of 890 patients treated with anti-PD-1 agents.

Adaptive Trial Designs in Rare Cancers

Sep 2022

Journal of Clinical Oncology

Framework for Bayesian adaptive enrichment in ultra-rare tumour populations.
